General Overview: The purpose of the build-out line is to allow goalkeepers and
defenders more time to control the ball before being pressured from opposing players;
to play the ball without pressure and 'build play from the back.'
The build-out line is used at 9U/10U games, (possibly 7U/8U games at the discretion of
the in-house competition authority.) These build-out line rules lead to another rule
update to encourage ‘building play out of the back’ – goalkeepers are no longer
permitted to punt the ball in games applying the build-out line.

Markings: The build-out line is drawn on the field parallel to the goal line approximately
14 to 17 yards from the goal line. In the absence of this field marking, disc cones on the
field are acceptable. If marked with tower cones or flags, those must be off the field and
at least one yard off of the touch line.

There are three situations in 9U/10U games where the build-out line is used and, after
some confusing guidance from US Soccer, each must be addressed separately: Goal
Kicks and Goalkeeper Possessions.

BUILD-OUT LINE RULE 1 = GOAL KICKS:
At all goal kicks, opposing players must move out of the build-out area. Opposing
players must remain on the other side of the build-out line until the ball is in play. The
ball is in play once the ball leaves the penalty area. The sanction is to retake the goal
kick. The ball is not required to clear the build-out area to be in play. The build-out line is
not relevant for any restart other than goal kicks.

BUILD-OUT LINE RULE 1 FAQs:
Can the goalkeeper throw or roll a goal kick?
No. At a goal kick the ball must be stationary inside the goal area. The ball must be
kicked and the ball is not in play until the ball leaves the penalty area.

For IDKs or DFKs that occur inside a team's own build out line area does the opposing
team have to be outside of the build out line area or just 10 yards away?
For all restarts, other than goal kicks, the build-out area is not relevant and the normal
minimum required distance would apply.
**BUILD-OUT LINE RULE 2 = GOALKEEPER POSSESSION:**
At all goalkeeper possessions, opposing players must move behind the build-out line. Opposing players must remain outside of the build-out area until the goalkeeper releases ball from their hands. The sanction is an IFK to the goalkeeper’s team where the build-out line infringement occurred. The six-second goalkeeper possession rule is not enforced until all opposing players are outside of the build out area. Goalkeeper possession includes the goalkeeper contacting the ball with any part of their hand or arm including bouncing and tossing/catching the ball.

**BUILD-OUT LINE RULE 2 FAQs:**
Can the goalie place the ball on the ground and kick it to anywhere in the field? Yes. However, once the goalkeeper releases the ball from their hands, opposing players who have cleared the build-out area, may enter the build-out area and play as normal including pressuring/challenging for the ball.

If the ball has to leave the penalty area to "be in play" can the goalie put the ball on the ground and dribble around for an indefinite period of time?
The ball does not need to leave the penalty area to be in play. The ball has always been in play. The goalkeeper may put the ball on the ground and dribble or pass or kick the ball at any time. Once the goalkeeper releases the ball from their hands, opposing player who have cleared the build-out line may enter the build out area (including the penalty area) and play as normal. Opposing players who failed to clear the build-out area must clear the build-out line in order to become involved in active play. The sanction is an indirect free kick to the defenders where the player interfered with play.

They are not holding the ball in their hands anymore, so does the 6second rule apply?
The six-second rule only applies to the goalkeeper controlling the ball their hands; however, the six-second rule does not begin until all opposing players have moved outside of the build-out area.

Ball is on the ground but not in play???
The ball has never gone out of play. After the goalkeeper releases the ball from their hands, opposing players who have cleared the build-out area, may enter the build-out area and play as normal including pressuring for the ball.

If goalie kicks the ball passed the buildout line before it is played by his/her team is that a foul, and what is the restart?
That scenario is not an infraction. The ball does not need to be 'played' by a teammate inside the build-out area. The goalkeeper kicking the ball is fine although punting is not permitted. The build-out line has nothing to do with when the ball is in play, it is only used temporarily to allow defenders (including the goalkeeper) a bit more time to play the ball without pressure to learn to 'build play from the back.'
Does “every part of the defender’s body” have to be behind the line?
There are no restrictions regarding defenders on the field.
All attackers must fully clear and remain outside the build-out area until the goalkeeper releases the ball.
Any opposing player(s) inside the build-out area cannot interfere with play until leaving the build-out area and the goalkeeper releases the ball from their hands. This includes a scenario where a opposing player, outside the build-out area, wins the ball and plays the ball to a teammate inside the build-out area but, who did not clear the build-out area, (indirect free kick to the defending team.)

If not marked on the field, how many yards in front of the PA is the line?
MAYSA suggests that the line could be marked anywhere from 14 yards to 16 or 17 yards from the goal line. Coaches should confirm this with the referee before the game if the field is not marked.

Home team should provide flags or cones marking where this line is if not marked on the field? Disc cones would be acceptable on the field. Flags or tower cones could be used but, should be at least one yard off of the touch line.

GK cannot punt off a save?
Correct. Punting includes drop-kicks, bouncing the ball off of the ground and/or tossing the ball into the air to kick it. The sanction is an Indirect Free Kick to the opposing team where the goalkeeper punted the ball subject to special circumstances for free kicks within a goal area.

Once GK possesses the ball, the opposing team must move beyond the build out line and the GK can then distribute the ball to his/her players behind or in front of the build out line - once a teammate of the GK receives the ball behind the build out line, then the opposing team may challenge for the ball or do they need to wait until the team with possession moves outside of the build out line?
In this situation the ball has always been in play. Opposing players are only restricted because of the goalkeeper possession. Opposing players may enter the build-out area as soon as the goalkeeper releases the ball from their hands. A ‘second touch’ is not required for opposing players to enter the build-out area.

If the GK distributes the ball in front of the build out line (without punting it), the opposing team may immediately challenge for the ball?
The goalkeeper may distribute the ball by dribbling, throwing, rolling or kicking the ball. If the goalkeeper distributes the ball out of the build-out area, opposing players may pressure the ball. However, if an opposing player, outside the build-out area, wins the ball and then plays the ball to a teammate inside the build-out area, who did not clear the build-out area, the sanction is an indirect free kick to the defending team.
BUILD-OUT LINE RULE 3 = OFFSIDE:
The build-out line is part of the definition for offside position in 9U/10U games. A player is in an offside position if he or she is closer to the opposing goal line than two opposing players, and the ball, and the opposing build-out line when a teammate plays or touches the ball.

Play is stopped for an offside violation when three situations occur:
1. a player is in an offside position
2. a teammate plays or touches the ball
3. the offside player becomes involved in active play.

All other offside technicalities apply.
Please review IFAB Laws of the Game, Law 11

BUILD-OUT LINE RULE 3 FAQs:
Is offside position determined when the offside player interferes with play?
No. Offside position is determined at the moment a teammate plays or touches the ball. Becoming involved in active play is only relevant after offside position has been established.

Is offside position determined where the offside player interferes with play?
No. If a player has been determined to be in an offside position, where the offside player becomes involved in active play is not relevant.
